Product information

Color: mint green

EXEL E-LITE MINT GREEN is a floorball blade designed for a modern, active style of play with plenty of ball contact. The E-Fect blade was developed in Finland and is primarily aimed at club players who are looking for a light feel on the blade when dribbling and direct power transfer when shooting. In Mint Green, the design looks clean and sporty, but on the court, it's the combination of shape, stiffness, and control that really counts.

- Product Type: Floorball blade
- System: E-Fect blade for a modern playing style
- Concavity: 8.5 mm for tight ball handling and precise control
- Pre-curvature: 18 mm for easy dribbling and creative feints
- Blade angle: high and open for precise shots
- Construction: Stiff, stable heel with power transfer to the tip
- Playing feel: Lightweight design for quick ball movement and active pressing
- Version: Left or Right

Especially during regular training, this blade demonstrates what modern geometry means in floorball: The ball stays stable on the blade, changes of direction are smooth, and even quick shots can be set up cleanly. The stiffer heel zone helps transfer energy all the way to the tip, which is particularly noticeable on harder shots. Players who rely heavily on feints, tight spaces, and speed during games will find a blade shape clearly optimized for control and dynamism.

When selecting a blade, be sure to choose the correct orientation—left or right.
