Product information

Color: white

EXEL E-LITE WHITE is a floorball stick designed for players who are looking for a modern feel right from the start. Developed in Finland, the E-Fect blade is designed specifically for technically skilled club players and ambitious young talents who expect immediate feedback when controlling the ball, dribbling, and shooting. Available in white and with either a left- or right-handed blade orientation, it caters to a variety of playing styles on the court.

- Product Type: Floorball blade
- Technology: E-Fect stick
- Concavity: 8.5 mm for smooth ball handling and precise control
- Curvature: strongly pre-curved with an 18 mm pre-curve radius
- Blade angle: high and open
- Construction: Stiff, stable heel for direct power transfer to the tip
- Playing style: Lightweight design for fast dribbling, ball movement, and active pressing
- Version: left or right, color white

On the field, this blade's balance really shines in dynamic game situations. The pronounced concavity aids in tight ball control, while the strong pre-curvature supports creative feints and quick changes of direction. At the same time, the firm heel construction ensures that energy is cleanly transferred forward during shots. This is particularly noticeable during training sessions with many repetitions or when quick shots are required under pressure during a game.

When selecting a blade, make sure to choose the orientation that matches your stick.
