Product information

Color: brilliant purple

EXEL E-LITE BRILLIANT PURPLE is a floorball stick designed for a modern, direct playing feel. Developed in Finland, the E-Fect blade is designed primarily for club players and ambitious youth players who seek smooth control while dribbling and precise power transfer when shooting.

- Product Type: Floorball blade
- System: E-Fect blade for a modern playing style
- Concavity: 8.5 mm for tight ball control and excellent maneuverability
- Pre-curvature: 18 mm for easy dribbling and creative feints
- Blade angle: high and open for clean ball reception and shots
- Construction: Stiff, strong heel with power transfer to the tip
- Playing feel: Lightweight for quick ball movement, forechecking, and ball recovery
- Variant: brilliant purple, left- or right-handed

On the field, this blade's design really shines in tight situations: the ball stays stable on the blade, quick changes of direction are executed with control, and the stable heel construction noticeably aids in shots. The pronounced pre-curvature supports technical moves while running without unnecessarily complicating the game. As a result, this model is well-suited for players who not only pass cleanly but also want to make the most of limited time in one-on-one situations and on first shots.

When selecting a blade, be sure to choose the correct orientation—left or right.
