Product information

Color: yellow

EXEL MEGA 2.0 YELLOW is a floorball blade designed for players who pay close attention to the blade when replacing or fine-tuning their stick. Especially during regular training and everyday club play, choosing the right blade makes a big difference, because ball control, passing, and shooting depend heavily on how the blade feels in your hands.

- Product Type: Floorball Blade
- Model: L Mega 2.0 SB
- Intended Use: Floorball, training, and games
- Stick type: Available in left- or right-handed versions
- Color: yellow
- Installation: As a replacement or interchangeable blade for compatible sticks

As the blade, this model is the part of the stick that makes direct contact with the ball. A change is particularly noticeable when a familiar setup needs to be continued after wear and tear, or when a specific blade is deliberately preferred within the EXEL selection. The yellow version fits seamlessly into the product line and works well in training and match sets where replacement parts need to be quickly accessible.

An important factor in your selection is choosing the correct blade orientation: left or right should match your usual stick handling style.
