Product information

Color: neon pink

EXEL AIR JUNIOR PINK is a floorball blade designed for youth players when a stick needs to be rebuilt due to wear and tear or to accommodate a different blade orientation. The JR version is designed for young players for whom a natural feel for the ball and precise control during practice are particularly important.

- Product Type: Floorball Blade
- Model: L AIR JR SB
- Intended Use: Youth, training, and indoor games
- Blade orientation: Available in left- or right-handed versions
- Age group: Junior
- Color: neon pink

Especially at the junior level, having the right blade makes a big difference because technique and timing are still developing. A blade like this provides a direct feel for the ball and is well-suited for dribbling, making clean first passes, and controlled shots during regular club play. The eye-catching neon pink design adds a distinctive touch to the stick without distracting from what matters most: a well-balanced setup for young floor hockey players.

When selecting a stick, it's important to choose the correct blade orientation so that the grip position and playing side match your current stick and your usual technique.
