Product information

Color: neon orange

EXEL VISION BLADE ORANGE is a floorball blade designed for players who pay close attention to the blade when setting up their stick. Especially during regular practice and day-to-day club play, choosing the right blade makes a noticeable difference in ball control, handling, and shots. The neon orange design adds a striking pop of color.

- Product Type: Floorball Blade
- Model: VISION
- Brand: EXEL
- Variant: L
- Hardness: MB
- Blade orientation: Available in left or right
- Color: neon orange
- Application: Replacement blade for floorball sticks

As a blade, this model is particularly appealing to club players who want to deliberately tailor the stick's feel rather than simply attaching just any standard blade. The L variant and the MB version position the blade in a category where control and balanced handling take center stage. This is particularly relevant during training sessions that require numerous passes, clean first touches, and repeated shots on goal. It also helps preserve the stick's familiar characteristics when replacing a worn-out blade.

When selecting a blade, pay attention to the correct blade orientation and the desired version.
