Product information

Textile dye: black

Textile size-1: SR

MCDavid Recovery Compression Socks in black are designed for hockey players who rely on snug support for their legs after intense practices, games, or long tournament days. Especially in the day-to-day routine of training and matches, when exertion and recovery follow closely one after the other, these socks are essential basics alongside your actual equipment.

- Product Type: Recovery Compression Socks
- Functionality: compression-based, snug fit
- Intended Use: Recovery after training, games, and off-ice activities
- Fit: sock-style design for the lower leg and foot area
- Color: black
- Sizes: S, M, L, XL, XXL
- Variant: Size SR

In hockey, the strain on the calves and feet is consistently high, whether from quick changes of direction, frequent stops, or intense off-ice running sessions. This is exactly where compression socks like the MCDavid RECOVERY COMPRESSION SOCKS BLACK come in: They fit snugly against the leg and are designed for the post-exercise recovery phase. This is particularly beneficial for club players and ambitious training groups who want to maintain as consistent a weekly routine as possible between multiple training sessions.

When choosing a pair, the most important factor is finding the right size so that the compression-oriented fit sits snugly.
