Stand and bend your leg just less than 45 degrees, measure knee circumference 2" (5 cm) below the center of patella (kneecap).

Product information

Textile dye: black

Textile size-1: SR

The MCDAVID KNEE BRACE, BLACK, provides support for the knee in situations where quick changes of direction, stops, and tight movements in hockey put strain on the joint. Especially during training or after prolonged periods of exertion, a knee brace helps to snugly encase the knee without unnecessarily restricting movement.

- Product Type: Knee brace for sports and training
- Protection area: Knee joint
- Fit: snug for stable support during movement
- Intended use: Hockey training, game preparation, and general sports use
- Color: black
- Sizes: S, M, L, XL
- Additional size information: SR

In everyday hockey, it's especially important that a knee brace fits securely and doesn't get in the way under the rest of your gear. The black version blends discreetly into your training or game setup and is particularly suitable for club players who prioritize a secure feeling around the knee. Even with repeated strain indoors or on the field, a knee brace of this type remains a practical part of your personal gear.

For optimal effectiveness, choose a size that ensures the brace fits snugly without constricting.
