Product information

Accessory size: JR

Accessory color: white/black

FATPIPE EYEWEAR PROTECTIVE EAGLE EYE JR is a pair of protective goggles designed for junior players, ideal for floorball during training, school sports, and everyday club activities. The black-and-white design has a sporty look and pairs well with gear that prioritizes protection and ease of use.

- Product Type: Protective eyewear for floorball
- Intended use: Training, games, and school sports
- Agegroup: JR
- Fit: Designed for junior sizes
- Color: white/black
- Model series: Eagle Eye JR Ace

Eye protection plays a particularly important role in youth sports because, in tight spaces with many sticks and fast-moving balls, there's often little time to react. Junior protective eyewear should therefore not be complicated, but should fit snugly and be easy to wear during normal training sessions. This model is primarily aimed at young field players, as well as parents and clubs looking for suitable eyewear for regular indoor use.

The JR size should fit the head shape typical for junior players. For a proper fit, it's worth quickly checking the player's age and face size.
