Product information

FATPIPE GRIP BAND STICKY GRIP is a grip tape for floorball sticks that is especially important during games and practice when you want the stick to feel secure and consistent in your hand. The white version is designed especially for club players and regular indoor players who prefer a direct grip feel and don't want to lose unnecessary strength when repositioning their grip.

- Product Type: Grip tape for floorball sticks
- Grip: Sticky Grip with adhesive surface
- Applications: Floorball, training, and games
- Variant: white
- Color options: available to match gray, black, and white
- Benefits: Promotes a secure grip and controlled handling

A grippy strap really makes a difference in fast-paced game situations: during shots, on first contact, and when quickly changing hand positions. That's exactly where a grippy grip shines, because it allows for smoother stick control and maintains consistent control even during intense sessions. For players who use their stick regularly in everyday club play, this makes a noticeable difference compared to simple standard tapes.

Before switching, it's worth taking a quick look at your preferred grip thickness so that the new tape feels familiar when wrapped and allows for the stick handling you're used to.
