Product information

Accessory size: One size fits most

FATPIPE ACE WRISTBAND LONG is a long-cut wristband designed for floorball and training, ensuring every movement on the field remains precise. Especially during intense indoor sessions, a longer wristband helps absorb moisture from the wrist and keeps you focused during the game. The white version has a classic look and goes just as well with match gear as it does with training gear.

- Product type: long wristband
- Uses: floorball, training, and games
- Function: absorbs sweat around the wrist
- Fit: One size fits most
- Variant: Long
- Color: white

Especially in regular club play, details like these are often more important than they seem at first glance. If you want to keep your hands dry during quick changes of direction, while dribbling, or when shooting, a wristband is a piece of equipment that actually gets used in everyday play. The Long design covers the wrist a bit more generously than shorter versions, making it a good fit for players who are constantly on the move during practice or a match.

The one-size-fits-all design suits most wrists and makes it easy to choose the right gear for training, everyday team use, or as a spare in your match bag.
