Product information

Textile dye: black

Textile size-1: SR

MCDavid MCDavid ANKLE SUPPORT BLACK provides support for the ankle in situations where quick changes of direction, sudden stops, and tight shoes take their toll during hockey. Especially during regular training or after intense exertion, a snug-fitting brace is often the more practical choice than a time-consuming taping solution.

- Product Type: Ankle brace
- Intended Use: Training, games, and general relief during everyday sports activities
- Fit: Close-fitting, suitable for wearing in athletic shoes
- Stabilization: Light to noticeable support for the ankle, depending on the fit
- Color: black
- Sizes: S, M, L, XL
- Additional size: SR

In hockey, it's not just about protection—it's also about mobility. An ankle brace like this is therefore particularly appealing to club players and ambitious indoor athletes who want to provide the joint with a little more support during training without completely altering their range of motion. The black version is discreet and can be easily integrated into your existing gear.

For a snug fit, choose a size that ensures the brace fits snugly but doesn't pinch inside the shoe.
