Product information

Color: Fresh Mint

FATPIPE SILK FRESH MINT is a floor hockey stick designed for players who are looking for a refined feel for the ball and a smoother stick response during practice and games. The SILK model in Fresh Mint combines the familiar shape with direct, controlled contact with the ball and is well-suited for technically oriented indoor floorball.

- Product Type: Floorball blade
- Model: SILK
- Technology: PPS
- Intended use: Ball control, passing, and shooting in floorball
- Blade orientation: Available in left- or right-handed versions
- Color: Fresh Mint
- Brand: FATPIPE

For club players who value a clear feel in the blade when receiving, dribbling, and passing the ball, the blade's tuning is crucial. This is exactly where this FATPIPE blade excels: It stays close to the ball and supports precise play in tight indoor situations. The PPS version is a well-known material option for FATPIPE blades and appeals to players who aren't looking for a hard, jittery feel but rather balanced control over the ball.

When making your selection, the most important factor is choosing the right blade orientation to match your existing stick setup and your preferred playing side.
