Product information

Color: ice gray

The UNIHOC EVOLAB FL ICE GREY is a floorball stick designed for players who are looking for a direct, lightweight feel and prioritize precise ball control during practice or matches. The 96 cm model with Flex 29 is primarily designed for advanced juniors and adults who want a controlled, all-around stick for regular indoor play.

- Product Type: Floorball stick
- Model: EVOLAB FL
- Flex: 29
- Length: 96 cm
- Blade orientation: available in left- or right-handed versions
- Color: ice gray
- Intended use: Indoor training and games

Especially during intense club training, you need a stick that feels natural during technical movements and keeps up with quick decisions. The EVOLAB FL fits perfectly into this category: not unnecessarily flashy, but designed for precise handling. The 29er flex is well-suited for players who prefer a balanced mix of ball control and shooting performance, without opting for an extremely soft or very stiff setup. The ice-gray finish has a understated and modern look.

Key factors in selecting the right stick include the appropriate blade orientation and a stick length of 96 cm in relation to your height and playing style.
