Goalkeeper size: INT

TRUE CATALYST 7X6 INT is a catching glove for youth and intermediate goalies who need a direct, clean feel when closing their hand during regular practice and games. Available in white and as a Full Right model, it is designed for goalies who hold the stick in their left hand and catch with their right.

- Product Type: Glove for ice hockey goalies
- Model: Catalyst 7X6
- Size: INT
- Version: Full Right
- Catching side: right hand
- Color: white
- IntendedUse: Training and games in goal hockey

In goal, it's not just protection that counts—it's also natural handling during catching motions, rebounds, and quick reactions in front of the body. A catching glove in this category is designed for goalies who want to tailor their equipment precisely to their own style and won't compromise on hand position. The Intermediate size is particularly well-suited for younger goalies transitioning to competitive play or for slimmer players who don't need a larger senior model.

Important when selecting: "Full Right" refers to a right-handed catching glove and a left-handed stick hand.
