Goalkeeper size: SR

TRUE CATALYST 7X6 SR is a goalie glove designed for regular use in practice and games. Available in white and size SR, this model is designed for adult goalies who prioritize proper equipment fit for catching and blocking. The Fullright/Regular options listed here cover the most common goalie playing styles.

- Product Type: Goalie glove for ice hockey
- Model: Catalyst 7X6
- Size: SR
- Color: white or white/black
- Goaliestance: Fullright or Regular
- Intended Use: Training and games in goal

Especially for goalies, the stick hand must align perfectly with the rest of the equipment and the player's preferred side of the rink. That's why choosing between Regular and Fullright is crucial to ensure proper stick handling, positioning relative to the shot, and overall movement around the net. The senior size is suitable for adult goalies in club settings, where freedom of movement, reliable coordination, and familiar handling are paramount.

An important factor in the selection process is choosing the correct goalkeeper side: Regular and Fullright differ significantly in stick handling.
